Report for Week Ending 16 May 1956
from
PROJECT STAFF

Projects 4-83, 4-96, 5-59, 5-60, 5-68

No change from previous report.

Project 4-84 - Vital Materials Microfilm Project

Microfilming of Vital Materials in the Office of Personnel and the Office of the Comptroller has been completed.

Microfilming of OCR/ER dossiers that were charged out during last filming will commence as soon as ER can assign a person to preparing dossiers (unstapling and unaccostening) for the microphotographers.

General Information

25X1A9a

25X1A9a

A meeting was held with Mr. [REDACTED] to discuss the transfer of certain old (1946-1950) ORE Studies, reports, etc., from ONE deposits to the centralized Intelligence Publications Index collection of finished materials. Mrs. [REDACTED] the ARO for ONE, was in agreement with this transfer and the custodian of the repository will effect the change.

25X1A9a Mr. [REDACTED] and a secretary from DD/P accompanied last weeks trip to the repository. Mr. [REDACTED] also made this trip for the purpose of checking certain DD/P microfilmed deposits. 25X1A9a

25X1A9a Messrs [REDACTED] of OCR visited the repository last week to check on the Graphics Register, Master Photograph File. During this inspection Mr. [REDACTED] OCR/GR suggested what seems to be a satisfactory method for bringing this file to a current status. 25X1A9a

The VM Repository is now filled with cabinets. To gain additional file space, the Security Office has concurred with a request to substitute non-insulated cabinets for the safes now in use. This will provide an estimated 40% expansion.
